This popular walk starts at Charlotte Pass and follows the Old Kosciuszko Road, as it winds through the mountains, to Rawsons Pass, then continues to the top of Kosciuszko. The walk passes the well known Snowy River and Seamans Hut. From Rawsons Pass it is a fairly short walk up the footpath to Mt Kosciuszko's peak. On a clear day the views span all the way to the horizon in every direction from the highest spot in Australia.

Kosciuszko National Park

Length: 18.5 km
Time: 6 hrs
Climb: 611 m
Style: Return
Rating: Track: Hard
Where: 0.5 km NW of Charlotte Pass
Transport: car

Visit www.wildwalks.com for more info

Side trips and Alternate routes mentioned in these notes are not included in the track overall rating, distance or time estimate. The notes only describe the side trips and Alternate routes in one direction. Allow extra time for resting and exploring areas of interest. Please ensure you and your group are well prepared and equipped for all possible hazards and delays. The authors, staff and owners of wildwalks take care in preparing these notes but will not accept responsibility for any inconvenience, loss or injury sustained by using these notes or maps. Please take care and share your experience through the website.

Please check park closures, weather information and Fire Danger Rating just before leaving for your walk. Walk maybe closed during Total Fire Ban.

Walk with a club - Enjoy bushwalking and make new friends (community announcement)
The NPA is more than just a bushwalking club. We are a conservation group that helps protect natural places.

As a member you can join any one of our 1000 guided walks each year and enjoy our quarterly magazine 'Nature NSW'.

Membership fee is just $65 per year, concession fee also available. Learn More...

Covered in snow part of the year
This walk leads through an extreme alpine environment and all walkers must be well prepared. During summer, be prepared for both very hot and cold weather, high winds, rain, snow, extreme UV levels and some sections of snow or ice on the ground. Before starting this walk, check advice with Snowy Region Visitor Information Centre (02) 6450 5600, the weather forecast and the snow conditions then change your plans as needed. These notes, grades and walking times have been written for use in the summer months only. Between May and the end of October, this walk is likely to be covered in snow/ice, visitors should carry and be prepared to use snowshoes or cross country skis. When there is a chance of significant snow on the ground, visitors will need particularly strong navigation and snowcraft skills - tracks and signage may not be visible. For most visitors, it is best to consider this walk closed during the colder months.

Between the long weekend in June and October, the road between Perisher Village and Charlotte Pass is closed by the RTA. It is possible to organise oversnow transport.

End of Kosciuszko Road to Snowy River bridge 4.5km 1 Hrs 20 mins
(From S) From the end of Kosciuszko Rd at Charlotte Pass (just near the toilet block), this walk heads along a wide management trail, following the large 'Summit walk' sign. The walk initially dips down a bit and heads through a grove of snow gums. This walk soon leaves the snow gums and the landscape opens to a fantastic view of the Snowy River and the valley (on your right). After about 1km, the walk passes a yellow 'MT K 8' sign on a snow pole. This walk continues along the management trail and gently undulates up along the side of the long ridge, passing several more 'Mt K' milestone signs counting down. After a while, the old road heads up and over a ridge, passing the 'MT K 5' and the original 'K 3' milestone (on your left) to find the un-signposted concrete bridge over Merritts Creek.

Continue straight: From the bridge, this walk follows the management trail west through the valley, where the trail soon bends right and passes a 'Snowy River' sign, coming to the bridge crossing the river.

Snowy River bridge to Seamans Hut 1.5km 25 mins
(From 4.48 km) Continue straight: From the ‘Snowy River’ sign, this walk crosses the bridge and heads north-west up along the management trail. The trail bends right and heads up towards Seamans Hut (visible in clear weather). The walk winds up the long hill and bends left, near a flat clearing with some valley views (to your right). Here, the old road bends left and heads up the hill, coming to the signposted ‘Seamans Hut’.

Seamans Hut
This hut was erected in 1929, after a young skier named Laurie Seaman perished in a blizzard when he was separated from his group. The hut was built using money donated by Seaman's parents, for the use of those who might need emergency shelter in the mountains. It was renovated in 1938 due to fire. Seamans Hut is a 7m x3m granite stone building with a wood stove, although there is little wood in the area. More info
Seamans Hut to Rawson Pass  1.6km 30 mins
(From 5.99 km) Continue straight: From 'Seamans Hut', this walk follows the management trail, heading west up the gentle hill, keeping the large valley to your right. The trail winds steadily up along the side of the long hill and, about 150m past the road cutting, this trail leads to a stone path and Australia’s highest toilet block. The walk then follows the stone path past the toilet and bike parking area to come to a clearly signposted three-way intersection at ‘Rawson Pass’.

Rawson Pass
Rawson Pass is where the old Kosciuszko Road, from Charlotte Pass, meets the metal walkway from Thredbo. It is home to highest public toilet in Australia, this recently-added facility is perfectly positioned for those taking the walk up to the top of Kosciuszko. Rawson Pass is well signposted and 500m south east of Mt Kosciuszko (by straight line). There is also a place for to park mountain bikes for those cycling along the old road from Charlotte Pass.

Rawson Pass to Mt Kosciuszko  1.6km 35 mins
(From 7.6 km) Veer right: From the intersection at Rawson Pass, this walk follows the ‘Mt Kosciuszko’ sign uphill along the stone pathway. The stone pathway soon becomes a gravel track and winds up and around the hill, keeping the peak of Mt Kosciuszko to your left. About 500m along the gravel track, this walk comes to a ‘Y’ intersection (with the Kosciuszko summit track on your left), just past the ‘Alpine Walks’ sign and map. Veer left: From the intersection, this walk follows the ‘Mt Kosciuszko’ sign uphill along the upper track. This track winds steadily up and around the peak of the mountain, passing a stone-paved section of track, and also a metal grate before climbing a few steps to the cairn at the peak of Mt Kosciuszko.

Mt Kosciuszko
Mt Kosciuszko is the highest peak on the Australian continent, at 2228m above sea level. It was named by the Polish explorer Count Paul Edmund Strzelecki and named in honour of the Polish national hero General Tadeusz Kościuszko. Now a popular tourist attraction, thousands of people walk up to the summit each year. On a clear day, the 360-degree views from the summit across the roof of Australia are fantastic. There are higher mountains elsewhere on Australian territory. The highest mountains in Australian Antarctic Territory are Mt McClintock (3490 meters) and Mt Menzies (3355 meters).

This is a ‘Return’ style walk - retrace your steps back to the beginning when you are ready.
